Week 3 Book 5

Queens University Belfast

Week 3 Challenge

The Goldilocks and Three Bears is a well known children's story and one that every child knows. Last week you had to create the XML for each bear's profile. This week, I would like you to create a startup screen like so:

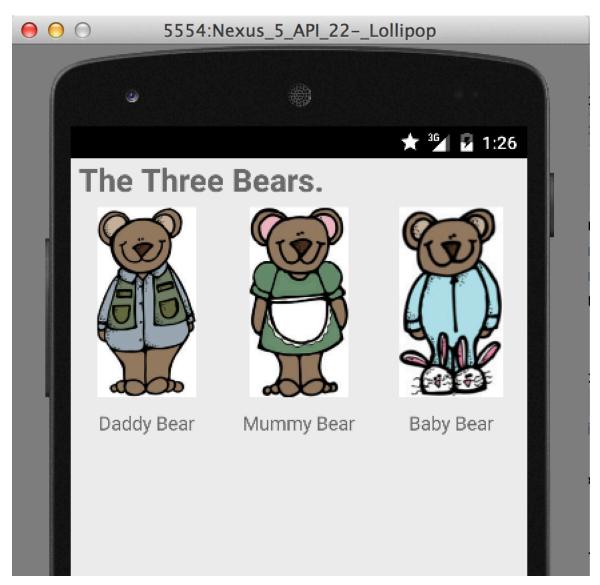

FIGURE 1 THREE BEARS STARTUP SCREEN

When the user clicks on an image, they should be navigated to the appropriate bear profile. E.g. if Daddy Bear is clicked, the user should be navigated to Daddy Bear's profile.
